

# Transport and Lifecycle of Seagrass Wrack in Geographe Bay

THE UNIVERSITY OF  
WESTERN AUSTRALIA

Carolyn Oldham  
Chari Pattiaratchi  
Brett Branco

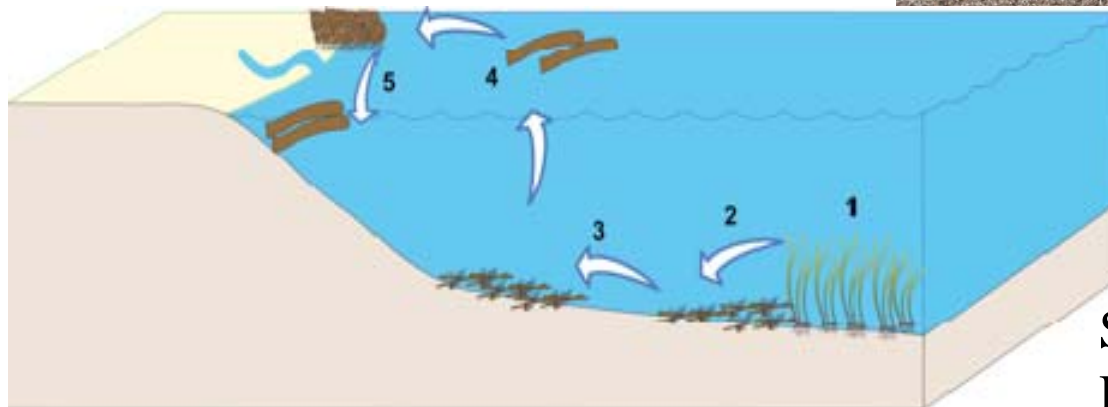

Tony Chiffings

Paul Lavery  
Kathryn McMahon

Dept. Planning & Infrastructure

1. Seagrass composition, biomass and leaf turnover.
2. Leaf loss (wrack generation) and decomposition.
3. Wrack transport to bare sand areas and decomposition.
4. Wrack transport to beach and decomposition.
5. Removal of wrack from beach and longshore transport.
