

Marine Coastal Community Network activities in WA...& beyond

- not for profit network, national focus
- mcn builds support for marine & coastal biodiversity conservation and sustainable use
- mcn aims to *inform, engage & connect* people on marine & coastal issues, by sharing:
 - outcomes of scientific research
 - info about best practice industry activities
 - exploring perspectives on current critical topics
- inform: waves mag, wetstuff-news, state e-news, currents e-news, other publications
- engage: facilitate projects, organise conferences, workshops & events eg. Kimberley Marine & Coastal Scientific Forum Series
- connect: connect people with services, programs & experts, facilitate partnerships across sectors, media reference point
