

Marine Science in WA 2010 Show-&-Tell

Name: Joseph Christensen

Affiliation: UWA & Murdoch University

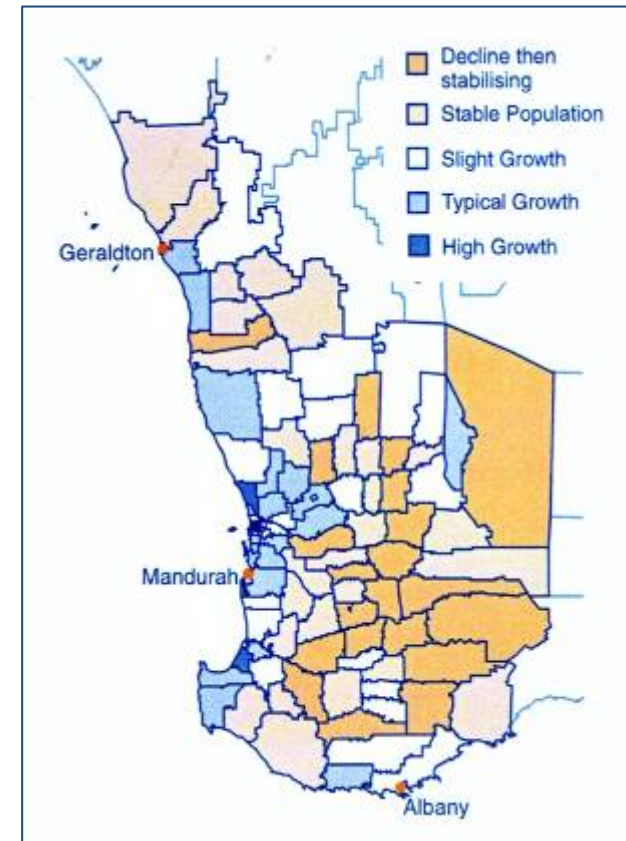

Newsflash title: Pilot Study to Develop a Socio-Economic Assessment of Fisheries (Recreational and Commercial) in the West Coast Bioregion

WAMSI Node 4.5.3: Pilot Study to Develop a Socio-Economic Assessment of Fisheries (Recreational and Commercial) in the West Coast Bioregion

Incorporating social and economic sustainability into the EBFM framework:

1. What are the initial and longer-term economic and social values generated under the changed management arrangements associated with demersal finfish fisheries in the West Coast Bioregion?
2. Scenario Analysis: future socio-economic impact of different management measures in 'hot spot' locations within West Coast bioregion
3. Recommendations for a long-term monitoring program of the level to which social and economic values are changing over time

Presenter: Dr Joseph Christensen (Murdoch)
Project Leader: Professor Malcolm Tull (Murdoch)
Senior Research Fellow: Dr Seamus McElroy
