

Marine Science in WA 2010 Show-&-Tell

Name: Jessica Meeuwig

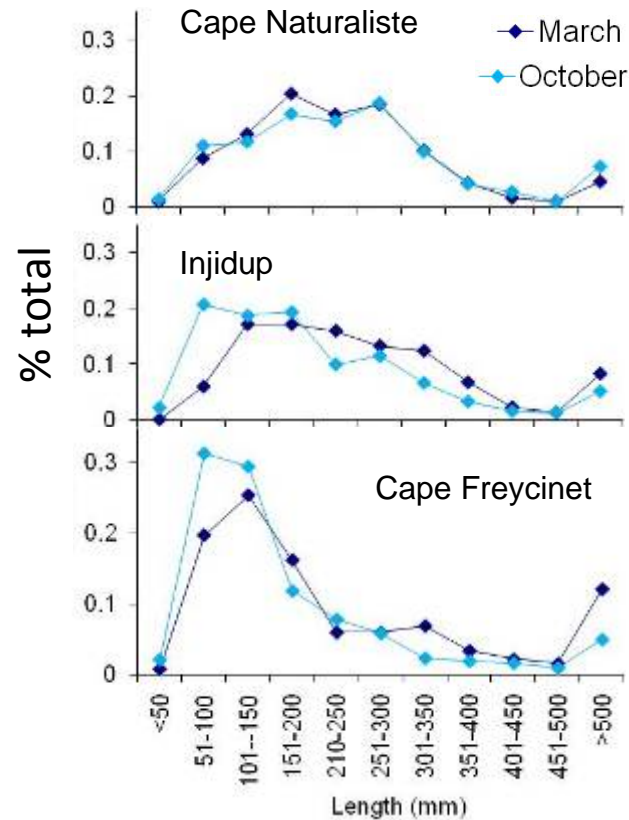

Affiliation: University of Western Australia

Newsflash title: SW Capes: Understanding seasonal variability in fish assemblage structure

SW Capes: Understanding seasonal variability in fish assemblage structure

- *No difference in size structure of fish assemblages by season*
- *Latitudinal gradient with larger fish in the north and smaller fish in the south*

(Meeuwig, Harvey, Taylor et al., unpubl)

Plans for 2010

- Understand changes in abundance of target species pre and post seasonal closure
